Education

Indian Institute of Technology Delhi — New Delhi, India
Ph.D. Civil Engineering (Transportation) — 2020-2026
Thesis title: Reliable electric bus system design considering energy supply uncertainties

NIT Hamirpur — Hamirpur, India
M.Tech. Transportation Systems Engineering — 2018-2020
Thesis title: Optimal generation of fast transit corridors in a city

G.B. Pant Engineering College — Pauri Garhwal, India
B.Tech. Civil Engineering — 2013-2017

Research Interests

Addressing challenges in real-world decison making due to uncertainties and disruptions. Special interests include planning and optimizing large-scale transportation systems and their operations, integrating clean energy, sequential decision making, and addressing uncertainties for resilient and reliable operations using operations research techniques.

Project Experience

Research Assistant and grant writing with Prof. Nezamuddin at IIT Delhi in the following projects:

1. Bus Electrification and Scheduling Framework Under Operational Perturbations 2024-2027
   Sponsoring Agency: Anusandhan National Research Foundation (ANRF), Government of India.
2. Catenary Based In-Motion Charging Mechanism for Electric Buses 2023-2024
   Sponsoring Agency: Bureau of Energy Efficiency (BEE), Ministry of Power, Government of India.
3. Electric Bus Operation and Performance Data Collection and Analysis 2022
   Sponsoring Agency: SG Architects, New Delhi.

Teaching Experience

Teaching assistant of Prof. Nezamuddin at IIT Delhi for the following courses: Intelligent transportation systems; Transportation logistics; Transportation economics.
Mentored several B.Tech. and M.Tech. projects during this duration.

Certification/Courses

- Summer School on Large Scale Optimization organized by Indian Institute of Technology Delhi, June 2026
- Summer School on Large Scale Optimization organized by Indian Institute of Technology Kanpur, April 2023
- E-bus System Planning and Optimization from pManifold EV Academy, August 2021
- Linear and Network Optimization organized by Indian Institute of Science Bengaluru, September 2020
- Credit courses on Data analysis for transportation engineering; Urban and regional transportation; Transportation network optimization at Indian Institute of Technology (IIT) Delhi, India

Skills & Interests

Technical: GAMS; GeoPandas; GIS; Gurobi; LaTeX; Linux; Python; R; SQL.
Language: English (fluent); Hindi (native).
